

Experiencing Hearing Loss and Balance Disorders

Questions to Ask Your Doctor About Hearing Loss & Balance Disorders

Hearing loss and balance disorders can be managed and treated. The earlier you address the symptoms, the more likely you are to avoid irreversible damage. Come prepared with the following questions when visiting your doctor or hearing professional.

1. What's the link between balance disorders and hearing loss?	6. Are one or both ears affected?
	7. How can I treat and manage hearing loss?
2. What exactly qualifies as hearing loss?	
	8. What might be causing my balance problems?
3. How severe is my hearing loss?	
	9. Can my balance disorder be treated?
4. What type of hearing loss do I have?	10. Can a change in my diet, quitting smoking, or the use of anti-vertigo and anti-nausea medications be part of my treatment plan?
5. Is my hearing loss permanent?
